How knowing the colour of your brain helps you Learn, Work and Connect better!

Emergenetics is a profiling instrument based on scientific research that indicates that individuals are **genetically** pre-wired at birth to think and act in certain ways, and these traits change as a result of social/environmental factors, i.e. **emerging** from our life experiences. The combination of genetics and experiences intertwine to form recognizable patterns that can be used to improve the way we learn, work and communicate.

Principal Trainer

Terence is a fully certified associate of Emergenetics personally trained by Dr Geil Browning, the founder of Emergenetics. He is passionate about helping people discover their strengths and be more effective in what do choose to do.

He has designed, trained and facilitated in both public and corporate programmes. Apart from customised Emergenetics workshops for corporate and public runs, Terence has also designed by programmes such as People's Association's inaugural Family Life Champion Development Programme, Facilitators' Training for Worldview Youth Conference 2007 and 2008, and Asia-Europe Foundation's Training for Trainers in Romania. Terence brings with him his wealth of experience working with the people, public and private sector. Some of the other organizations Terence has worked with include AIA, Carpe Diem Childcare Group, DSO, GE Healthcare, HQ MES, MINDEF, Central Singapore Community Development Council, MOH, MCYS, NUS Business School, SYINC, Young National Trade Union Congress, and many others. He is a member of the Southwest Community Development Council's Youth Functional Committee, and has led several nationwide projects. Terence holds a Honour's Degree in Psychology from the University of Sheffield, UK and was active in the Students Union holding several leadership positions in the Malaysian and Singaporean Students Society and Alumni Student Steering Group, which he founded. During his long service with the Republic of Singapore Navy, Terence won the Military Training Award and Academic Training Award and was also trained in the prestigious Britannia Royal Naval College, Dartmouth, UK.

Terence loves adventure, travelling and the great outdoors. He finds much of life's inspirations from his learning of cultures around the world and is committed to impact positively.
