

THE EXECUTIVE SERIES

PRACTICAL CREATIVE PROBLEM-SOLVING TRAINING

We are constantly hit by problems that are unique in their own ways and the only way to solve them is to be creative about the solutions.

This programme provides you with a systematic approach to creative problem-solving at the workplace and equips you with innovative tools that are easy to employ and effective to use.

Programme Topics Include:

- What is Creative Problem-Solving?
- Setting the Stage for Creativity
- Obstacles to Creative Problem-Solving
- Creative Problem-Solving Tool Kit
- Case Studies and Practicum
- Reflection and Evaluation

Methodology

Experiential learning that allows participants to acquire skills through a good mix of classroom delivery, hands-on activities and personal reflection.

This programme is for you if you wish to:

- Learn to Identify the Problem
- Learn the Approaches to Problem-Solving
- Understand the Challenges to Creative Problem-Solving
- Learn Creative Problem-Solving Tools and How to Apply Them

Pre-requisite

Competency in English

Programme Duration

Full Day

Practical Creative Problem-Solving Training can be tailored to be an effective management review or management-focused group discussion. Speak to our programme manager to find out more.
